WHITE[®] TOOL STORAGE

Premium Quality - Industrial Strength - Peace of Mind Security

Brand Story

The Original Industrial Quality, Strength & Security for 30 Years

In 1988 White International launched their own tool storage range with a small range of red chests and trolleys. Nearly thirty years later we are proudly continuing the tradition of manufacturing tool storage solutions for the automotive industry with our classic red range of tool chests and roller cabinets. All to the highest standards of quality and workmanship.

Part of what keeps White International's Tool Storage 'trade preferred' reputation is our commitment to innovation, ensuring that our products are perfect for our demanding Australian market. This allows you to make your job easier by protecting and organising your precious tools for years to come.

White Tool Storage Timeline

NEW external central handles

NOT ALL TOOL BOXES ARE THE SAME...

What makes White International Tool Storage better than our competitors?

Heavy duty electrostatic powder coating gives the product a high quality durable finish

Double wall, heavy gauge steel construction which offers greater strength and security

Rolled edge construction delivers rigidity and integrity to the framework

Gas Struts on all tool chest lids for added safety

Most of the range has lockable drop fronts for added security

Includes draw liners and top mat to protect your precious tools

All drawers are fitted with Industrial grade Ball Bearing slides for easy & comfortable use

Fully extendable snap lock drawers with centrally located handle that allows you to gain full access to all of your tools

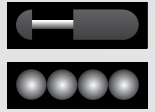

Heavy duty PU castors for our roller cabinets that carry the transmitted load and moves with ease.
