

LISTENS • INNOVATES • DELIVERS

Super Rod are at the forefront of cable routing technology, developing innovative products designed to improve efficiency and safety. Super Rod products are multi-purpose tools that allow installers to inspect, illuminate and retrieve with unique time saving attachments.

Strength

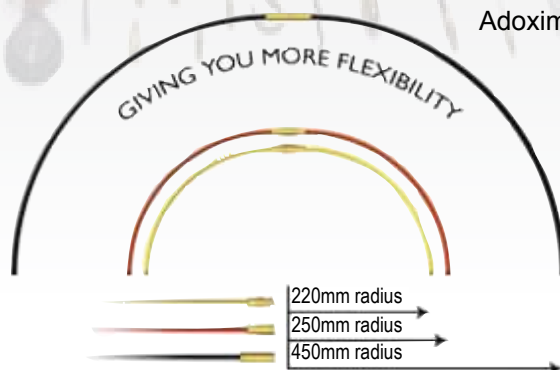

- Adoxim 5® is a special formula developed by Super Rod specifically for professional trade use.
- Adoxim 5® ensures Super Rod products are RIGID enough to push through obstacles and prevent snaking, whilst being FLEXIBLE enough to bend and curve without risk of breakage.
- Strong metal fittings and friction-lock action keep the rods securely joined and reduce snagging.
- Principle rods come in three flexes to ensure you always have the right tool for the job.
- Minimum tensile strength of 200kg/2000N.

Quality

- Super Rod source raw material for its products from long standing supply partners that comply with the strictest quality systems.
- Adoxim 5® improves life expectancy and ease of handling, and reduces splinter and irritation problems.
- Super Rod is an ISO 9001 accredited company. They endeavour to maintain a high standard of quality in all aspects of the business.

Safety

- The Super Rod system significantly reduces the need for the installer to leave the ground.
- Less ladder time – Increased safety!

SUPER ROD = TIME SAVING

PART NO.	Description	LIST PRICE	Illustration
SRMX	<p>MEGA SET The ultimate time saver for electricians and data installers who spend a lot of time installing cables Length: 16 metres of length - 5 Rod Flexibilities Attachments: 12 Attachments - Route, retrieve, illuminate and grip The Mega Set combines all of the basic cable handling attachments with a selection of super attachments including the Super Beam, Super Grips and Magne! With over 16 metres of rod in 5 flexibilities, this set will provide a solution to even the toughest of cable routing tasks. The Mega Set is without doubt the most comprehensive and best value set sold worldwide. It is our answer to experienced installers' demands for an extensive multi-purpose cable installation tool. If you regularly route cable, and invest in tools to save you time, then this is the set for you.</p> <p>Contents: 1 Metre rods: 6 x 5mm, 3 x 4mm, 3 x 6mm, 1 x 5mm nylon rod, 1 x 5mm Glo-rod and swivel, 1 x 5mm swivel rod, 1 x 4mm swivel rod Accessories: 1 x Tuff Hook, 1 x Gender Changer, 1 x Domed Bullet, 1 x Flat Bullet, 1 x Super Beam, 1 x Mini Eye, 1 x Super Magnet, 1 x Flexi Lead, 1 x Chain, 1 x 6-10mm Super Grip, 1 x 11-15mm Super Grip, 1 x Shape-it Flexi Lead, 1 x Tough carry tube</p>	\$449.00	
SRSD	<p>DELUXE SET Ideal for professional electricians, data installers etc. Length: 10 Metres of length - 3 Rod Flexibilities Attachments: 7 Attachments - Route, retrieve and illuminate The Deluxe Set has a choice of three flexibilities, 10 metres of rod and 7 cable handling attachments, allowing you to take on difficult cable routing tasks. Attachments include the Super Beam and Super Magnet, allowing you to inspect dark voids and retrieve dropped tools. The Deluxe Set enables examination, planning and installation of the fastest and most economical route, requiring less drilling.</p> <p>Contents: 1 Metre rods: 6 x 5mm, 2 x 4mm, 2 x 6mm Accessories: 1 x Tuff Hook, 1 x Gender Changer, 1 x Domed Bullet, 1 x Flat Bullet, 1 x Super Beam, 1 x Mini Eye, 1 x Super Magnet, 1 x Flexi Lead, 1 x Tough carry tube</p>	\$299.00	
SRS6	<p>SUPER SIX SET The mixture of flexibilities is ideal for residential and light commercial work where access is often restricted. Length: 6 Metres of length - 3 Rod Flexibilities Attachments: 6 Attachments - Route and retrieve The Super Six contains six metres of rod in three flexibilities and 6 attachments. This set includes the Super Magnet, allowing you to retrieve dropped tools!</p> <p>Contents: 1 Metre rods: 3 x 5mm, 2 x 4mm, 1 x 6mm Accessories: 1 x Tuff Hook, 1 x Gender Changer, 1 x Domed Bullet, 1 x Flat Bullet, 1 x Mini Eye, 1 x Super Magnet, 1 x Flexi Lead, 1 x Tough carry tube</p>	\$229.00	
SRSS	<p>STANDARD SET It is capable of overcoming most day-to-day cable laying problems, particularly in smaller domestic and commercial installations. Length: 5 Metres of length - 2 Rod Flexibilities Attachments: 4 Attachments - Route The inexpensive introduction to the benefits of Cable Rod. The Standard Set contains the four must-have cable handling attachments and five metres of rod in two flexibilities.</p> <p>Contents: 1 Metre rods: 4 x 5mm, 1 x 4mm Accessories: 1 x Tuff Hook, 1 x Gender Changer, 1 x Domed Bullet, 1 x Mini Eye, 1 x Flexi Lead, 1 x Tough carry tube</p>	\$139.00	

PART NO.	Description	LIST PRICE	Illustration
SRHS	<p>HANDY SET</p> <p>In restricted areas where full length rods are too unwieldy, or when predominantly routing short runs of cable you need the 'half-size' Handy Set.</p> <p>Length: 2.5 Metres of length – 4 Flexibilities</p> <p>Attachments: 3 Attachments - Route</p> <p>Four 500mm rods plus a 330mm Flexi-lead give you over two metres of reach and all four flexibilities. The three most frequently used attachments are included and remember that all the attachments from your main set can also be used.</p> <p>Contents: 500mm rods: 2 x 5mm, 1 x 4mm, 1 x 6mm 330mm rods: 1 x 5mm Nylon rod Accessories: 1 x Mini Hook, 1 x Domed Bullet, 1 x Mini Eye, 1 x Tough carry tube</p>	\$89.00	
SRTB	<p>TOOLBOX SET</p> <p>The Tool Box Set keeps the versatility of Cable Rod in easy reach. At 330mm it will fit inside most tool boxes and yet provide you with approximately one and a half metres of reach and all four flexibilities.</p> <p>Length: 1.5 Metres – 4 Flexibilities</p> <p>Attachments: 3 Attachments - Route</p> <p>Including the three most useful attachments there is plenty of scope to deal with ultra restricted spaces or the little problems, which arise when your main set is locked in the van. Compatible with the full range of Cable Rod attachments and accessories.</p> <p>Contents: 330mm rods: 2 x 5mm, 1 x 4mm, 1 x 6mm, 1 x 5mm Nylon rod Accessories: 1 x Mini Hook, 1 x Domed Bullet, 1 x Mini Eye, 1 x Tough carry tube</p>	\$84.00	

SUPER GRIPS			
These attachments provide a quick and secure method of attaching cables to your rods. The grips come in 5 sizes covering cable diameters from 4mm to 30mm.			
SINGLE PACKS			
SRSK-0406	Pulling sock for 4-6mm diameter	\$49.00	
SRSK-0610	Pulling sock for 6-10mm diameter	\$49.00	
SRSK-1115	Pulling sock for 11-15mm diameter	\$49.00	
SRSK-1622	Pulling sock for 16-24mm diameter	\$59.00	
SRSK-2330	Pulling sock for 23-30mm diameter	\$99.00	
MULTI PACKS			
SRSK-0415	Pulling sock triple pack for 4-15mm diameter	\$99.00	
SRSK-0615	Pulling sock double pack for 6-15mm diameter	\$89.00	
SRSK-1630	Pulling sock double pack for 16-30mm diameter	\$149.00	

PART NO.	Description	LIST PRICE	Illustration
ILLUMINATION			
SRSB	CABLE ROD SUPER BEAM Self contained LED torch, to fix onto any of your Cable Rods. This brilliant little attachment turns your Cable Rod set into an inspection tool! It can also be used to locate the end of the rods within voids.	\$49.00	
SRFSB	SUPER FLEXI BEAM Perfect for inspecting confined spaces (under floors, cavity walls etc.) The Super Flexi Beam combines the Gooseneck with the Super Beam, allowing you to direct light where you really need it. Used on its own or with Cable Rod, the Super Flexi Beam is a must have addition to any Electricians tool bag.	\$55.00	
ROUTING ATTACHMENTS			
SRDMK	DOUBLE MAGNET KIT Two incredibly powerful magnets, capable of lifting 2.5kgs each. Make a rod connection in a ceiling void or under floors by attaching the magnets onto separate rods. Simple, yet strong magnetism will allow you to effectively locate the other magnet and then pull or push your rod into place.	\$49.00	
SFDM	SUPER FLEXI MAGNET Utilising the benefits of the Goose Neck Kit, we have now combined a 200mm length, with the Double Magnet, giving you flexibility whilst retrieving objects up to 2.5kg.	\$49.00	
SRGLIDER	THE GLIDER Skips over all sorts of obstructions and is particularly successful routing cable over ceiling insulation and joists. The Glider is cleverly designed to take other attachments for super-efficiency; for example screw a Super Grip inside the Glider and attach cable or pipe, then screw the Super Cam or Super Beam to the front of the Glider.	\$46.00	

PART NO.	Description	LIST PRICE	Illustration
ACCESSORIES			
CRMP7	MAGNIFICENT SEVEN Contents: 1 x Domed Bullet, 1 x Flat Bullet, 1 x Gender Changer, 1 x Mini Eye and Ring, 1 x Tuff Hook, 1 x Mini Hook, 1 x Single Magnet	\$45.00	
CRMC	MAGCOM TRACER The Magcom Tracer allows you to locate the rod end when concealed inside walls, conduit, flooring etc. This is particularly useful when locating obstructions. Screw the Super Magnet onto a rod and feed it roughly into position. Sweep the area with the compass and the needle will reverse when it passes the magnet. The Magcom Tracer is sensitive to approximately 60mm depending on the material it has to sense through.	\$63.00	
SRCA1	The Cavity Master has been born out of years of lifting and then having to repair or replace particle or chipboard flooring to gain access to services, then having the time consuming job of repairing the floor usually without success! By using the Cavity Master tool, floors and wall spaces are quickly opened and sealed with the closure plate. The opening and closing of the floor or wall can be accomplished in 2 minutes. The Cavity Master works equally well on floorboards or any wooden material.	\$179.00	
SRCAPS	REPLACEMENT CAVITY MASTER COVER PLATES Pack of 5 solid plates.	\$39.00	
SR-TP	TELESCOPIC POLE Ideal for quick cable routing. Telescopic extendable poles with a polyester resin baked enamel coating for durability. The Telescopic Pole is 5.6 metres in length when fully extended. Super Rod's Telescopic Pole adds another way to route cable and one that will be appreciated by electricians involved with larger size projects. The Telescopic Pole is considerably more rigid than rod or coiled based products, giving the installer far more control and greater accuracy over longer reaches.	\$338.00	
SR-TPR2	TELESCOPIC POLE C/W EARTH TEST The Telescopic Pole can be used in conjunction with the R2 testing lead, enabling users to make contact with exposed conductive parts on any electrical equipment or accessory, for example fluorescent luminaries, fans and AC units etc. This eliminates the need to use ladders, towers or scissor lifts.	\$399.00	
SRJK	CABLE JACK The Cable Jack is an innovative cable spooling device. It uses your existing 44mm Cable Rod tube, along with metal collars and legs, to form an 'A' frame. You can use this frame as a lightweight spooler for small domestic jobs. The two metal collars slide onto the 44mm tube. You can leave them in place and slide rolls of cable over the assembly. Then, by screwing the legs into the collars, you lift the rolls off the ground allowing them to turn freely. This is a seriously clever product. You are taking the Cable Rod tube with you onto site, so why not add in this extra functionality!	\$89.00	

INDUSTRIAL TOOLS

SUPER ROD

----------	-------------	------------	--------------

PRINCIPAL ROD PAIRS

<p>When either upgrading your current kit, or just replacing lost or misplaced rods, rod pairs are often an ideal solution.</p> <p>The most popular options are shown below, however, if you do not find the combination you are looking for, please contact White International and the team will be happy to customise a set to your personal requirements.</p>			
CRFF	<p>4MM YELLOW RODS</p> <p>The 4mm Floppy Rod really comes into its own when you are working in a restricted space such as in corners and close to floors and ceilings, giving you additional flexibility.</p> <p>Contents: 1 Metre rods: 2 x 4mm.</p>	\$49.00	
CRSR	<p>5MM RED RODS</p> <p>The 5mm red rod has enough flexibility to cope with smooth sweeping bends, but is rigid enough to span open areas and is strong enough to push through many obstructions.</p> <p>Contents: 1 Metre rods: 2 x 5mm.</p>	\$49.00	
CRST	<p>6MM BLACK RODS</p> <p>The tough 6mm Stiffy Rod swaps flexibility for rigidity and strength. Good for bullying its way through insulation, debris and using when navigating your way across wider areas like ceilings etc.</p> <p>Contents: 1 Metre rods: 2 x 6mm.</p>	\$53.50	
CRNR	<p>NYLON RODS</p> <p>These rods are so flexible you can tie them into knots - but are made from a 'no memory' material so they will straighten without bends or kinks. It's your own mini fish tape, without the hassle of trying to manage a full 10m unit.</p> <p>Contents: 1 Metre rods: 2 x Nylon rods.</p>	\$59.00	

SPECIALITY ROD PAIRS

<p>Developed over a period of years with the help of you, the installers, Super Rod have adapted several of their standard rods and made them a little bit special.</p>			
SWRP-5/4	<p>SWIVEL PAIR</p> <p>The Swivel-End removes the hassle and frustration when cable or flexible conduit keeps twisting as it tries to re-coil - tying itself in knots, twisting out of your hand or trying to unscrew the rods. Again a must have rod when working over longer distances.</p> <p>Contents: 1 Metre Swivel Rods: 1 x 5mm (Red), 1 x 4mm (Yellow).</p>	\$72.00	
GLSE	<p>GLO SWIVEL ROD</p> <p>Working in dark voids and keeping sight of your rod end can be difficult. The fluorescent Glo-Rod is the simple but very effective solution, and has the additional feature of the Swivel End.</p> <p>Contents: 1 Metre rods: 1 x fluorescent rod with swivel attachment.</p>	\$36.00
