Rainsaver MK5

The **MK5** is the newest innovation from Bianco Rainsaver that switches between tank water and the mains supply. Not only does it **conserve water**, it's **easy to install** and requires absolutely no power supply. Not to mention, each control carries a peace-of-mind **2 Year Rainsaver MK5 Warranty** and **WaterMark approved** components. The Bianco Rainsaver MK5 is **Australian owned and designed** so you know it's ideal for Australian home owners.

Control Features

- Proven components
 - Requires no power supply and consumes no electrical energy
 - Designed to operate with pumps and mains up to 1000 kPa (145 psi)
 - Up to 120 Litres per minute pump flow for large homes and commercial applications
 - Designed to further save water resources by reducing incoming mains to 200 kPa
 - Requires no weather proofing
 - Can be mounted any distance from the pump underground or inside a tank
 - Completely waterproof - Can be hosed down without the fear of electrocution
 - UV stabilised technopolymer for long life and good looks
 - All Rainsaver MK5 pumps are independently controlled to regulate flows and pressures whilst protecting the pump against voltage fluctuations, loss of water and incorporate a 24 hour automatic pump restart
 - WaterMark approved components for connection to all Town Water supplies. Safe against water borne bacteria, dezincification and lead poisoning
 - No unsightly controller power, water level float cables or the need for a dedicated controller power point
 - Australian owned and designed
- 2 Year Rainsaver MK5 Warranty - Warranty Service is provided at the nearest authorised service agent.**
