

Triton's Workcentre offers superior versatility and portability, and with the addition of Triton accessories, becomes a complete woodworking system. Designed to work seamlessly with Triton's own range of power tools, the Workcentre is virtually 100% compatible with other power tool brands on the market. Ideal for making quality furniture, craft items, or for carrying out household renovations, Triton's Workcentre System delivers professional results every time.

Reversible and Adjustable Aluminium Fence
doubles as support for 45° bevel cuts

Rip Fence Locking Handles
allows for rapid locking & releasing of sliding rails

Material pressure fingers
hold the workpiece firmly

Riving knife
prevents material from jamming

Adjustable, clear guard
for a clear view of the cutting line

Crosscut Height Adjustment
suits all circular saw sizes

Power Switch
with quick stop panel for added safety

Folding Legs
for compact storage & easy transportation

Integrated Rulers
allow for accurate adjustment of the fence

Robust All-Steel Construction
with powdercoat finish for long-lasting operation

3-Sided Protractor
is fully adjustable & locks with side pressure finger

1 Workcentre, 2 Systems, 9 Operations...

Table Saw

Move the timber not the tool

1. Rip planks, beams or sheet material easily, accurately and safely
2. Rip fence extends 620mm / 24³/₃₂" from the blade and enables handling of large sheets
3. Crosscut and mitre cut with outer-adjusting, using the unique three-sided protractor
4. Rip fence is reversible to provide a 45° face for accurate bevel and chamfers of any length
5. Cuts rebates, grooves and tenons

Crosscut Saw

Move the tool, not the timber

6. Accurately crosscut long or heavy stock including beams, posts, studs, shelves and moulding by moving the saw, not the wood
7. Cuts compound bevel mitres by angling the blade and the wood
8. Easy mitre, bevel and rebate joints
9. Crosscuts up to 500mm / 19.6" wide, and virtually doubles the depth of cut by making cuts from opposite faces

Selling Points

- Versatile woodworking machine perfect for rip, mitre, cross & bevel cuts
- Switches from Table Saw to Crosscut Saw in 40 seconds
- Reversible & fully adjustable aluminium fence
- Compatible with 185mm / 7¹/₄" – 235mm / 9¹/₄" circular saws
- Adjustable clear guard with pressure fingers & riving knife
- Folding legs for easy storage & transportation
- Sliding push stick increases safety when ripping to a fine thickness
