Estwing AL-Pro Aluminum Hammer

The Estwing AL-Pro Hammer, is the latest in hammer design technology. AL-Pro is made from forged aircraft aluminum alloy, which is lighter than Titanium. Vibration dampening shot is built into the head giving every blow the maximum force. The PERMA-CAP steel head and interlocking steel claw give this hammer durable strength where it is most needed, and the reduced claw length provides increased leverage. The AL-Pro includes a magnetic nail starter in the head.

The AL-Pro was engineered with the professional in mind for extended usage. It provides power in a lighter weight package, for the best performance in a hammer and is available with our patented Shock Reduction Grip in either black or Estwing blue.

Estwing AL-Pro

Order Number	Handle Grip Color	UPC Number	Head Weight approx. oz./grams	Overall Length approx. inches/mm	Shelf Pack
ALBK	Black	0 34139 99001 7	14 oz / 392 g	16" / 406 mm	1
ALBKM	Black	0 34139 99002 4	14 oz / 392 g	16" / 406 mm	1
ALBL	Blue	0 34139 99003 1	14 oz / 392 g	16" / 406 mm	1
