DuraFlex

PermaShape®

Guarantees trowel will maintain original flat shape

Golden Stainless Steel Blade

Withstands pressure of hard troweling

- PermaShape® guarantees trowel will maintain original flat shape
- Flat, yet flexible thinner blade makes applications easier with more consistent finish. Great for render, drywall & texture.
- Available with a long or short mounting which allows for more flexibility
- Highest grade, hardened and tempered, golden stainless steel blade, properly shaped and fastened with stainless steel rivets
- Withstands pressure of hard-troweling
