PRODUCT DATA SHEET

ZENIT COUPLING FOOT FOR PUMPS WITH HORIZONTAL OUTLET

ZEN CF80 - 711152

PRODUCT DETAILS

Coupling devices enable quick, reversible hydraulic connections between pumps and outlet piping without the need to drain a tank or disconnect piping.

Zenit's cast iron coupling devices feature a patented release system, dual guide pipes for perfect alignment and NBR rubber seals.

The design maintains optimal intake positioning without requiring tank steps, reducing installation costs and simplifying pump replacement in existing systems.

This allows pumps to be quickly brought to surface and reconnected with minimal downtime.
