PRODUCT DETAILS

The Claytech Self-Priming Inox Series multistage pump is well-known for its quiet and reliability in the Australian market. Designed for use in a larger home, it is more energy efficient than a jet pump and can self prime to a depth of 4 meters. This makes it ideal for above and below ground rainwater tanks.

BENEFITS

- Self priming enables the pump to draw reliably from water lower than the pump inlet
- High flow, flat consistent performance curve.
- Complies with AS/NZS 4020 requirements

FEATURES

- Multi-stage pump
- Quiet, reliable operation
- Designed for larger homes
- Self-Priming
