PRODUCT DETAILS

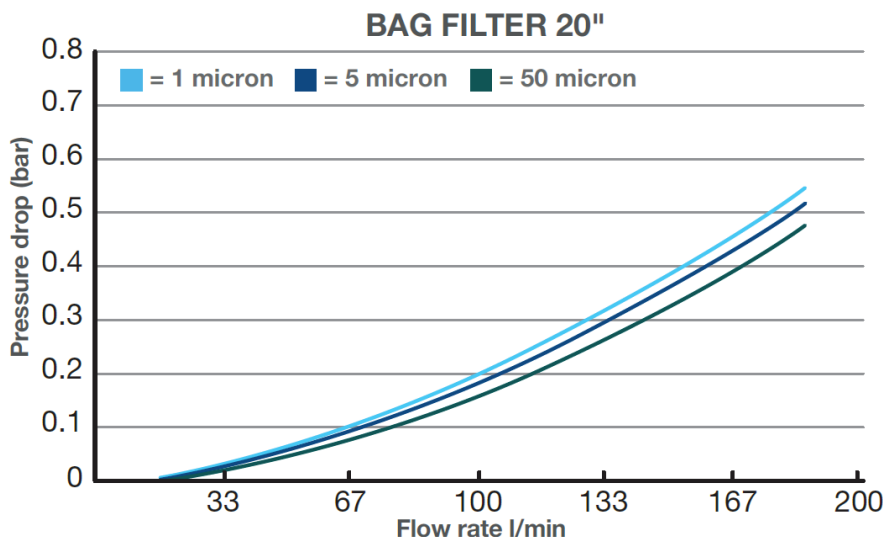

HERO Bag Filters are designed for fine and coarse sediment filtration. Compatible with DP BIG Mono filter housings, as well as industry-standard filter bags, the high sediment-holding capacity of HERO bags extends maintenance intervals and reduces replacement frequency.

APPLICATIONS

- Domestic – mains water and rainwater
- Rural/Agriculture – bore water and irrigation systems
- Light Industrial – high-sediment water sources

FEATURES & BENEFITS

- 50-micron nominal filtration reduces sediment, silt, sand, rust and suspended particulates
- Compatible with industry-standard filter bags
- Retrofittable design converts DP BIG Mono housings into bag filters using the HERO Adapter Kit
- Low pressure drop with high dirt-holding capacity

MAINTENANCE

Replacement interval depends on source water quality and flow rate.

Replace filters every 12 months OR when the difference between inlet and outlet pressure approaches 1 bar (pressure drop) with water running.
